

*A Sidewalk Café Site Plan shall include the following information:*

1. A scaled site plan showing property lines and, if applicable, any building setbacks of the subject property from the property line.
2. An elevation drawing showing the materials and height of the barrier and any canopies or coverings.
3. A note setting for the square footage of the sidewalk dining area.
4. A drawing or diagram showing the seating configuration, umbrellas and other objects within the sidewalk dining area and all surface obstructions within 15 feet of the proposed sidewalk dining area and their distances from the dining area.
5. A drawing or diagram showing the width of unobstructed walkway abutting or adjoining the sidewalk dining area.
6. Size, location, style design and color of all fences or other structures serving as barriers or boundary markers for the proposed sidewalk dining area.
7. Points of access to the sidewalk dining area; and
8. Points of access to the restaurant building and any other building immediately adjacent to the proposed sidewalk dining area.
9. Applicant's signature and the date of signature.

(Effective: June 23, 2014)
