

SECTION 214 – THERMOPLASTIC PAVEMENT MARKINGS

1. GENERAL

This work shall consist of constructing thermoplastic pavement markings. All materials, equipment and construction shall conform to the latest version of Division 806 of the Kansas Department of Transportation (KDOT) Standard Specifications.

2. MATERIALS

The materials shall conform to the latest version of Division 2200 of the Kansas Department of Transportation (KDOT) Standard Specifications.

3. CONSTRUCTION

Construction of Thermoplastic Pavement Markings shall conform to the latest version of Division 806 of the Kansas Department of Transportation (KDOT) Standard Specifications.

4. MEASUREMENT OF PAYMENT

Payment for this work will be at the contract linear foot price for “Thermoplastic Pavement Markings.”

The Engineer will pay for 90 percent of the completed pavement markings. Upon acceptance of the pavement markings following the 180 day observation period, the Engineer will pay for the remaining 10 percent of the completed pavement markings.
