Journeyman - Sheetmetal		3 yrs	\$59.00				6 hrs per year, or 18 hrs/3years	Two years field experience under the direct supervision of a person holding a valid sheetmetal journeyman, mechanical journeyman or mechanical master certificate

Notes: At least 50% of the required continuing education hours must be code credits in the trade for which the individual is licensed. (FOR EXAMPLE: A Master or Journeyman Plumber must take at least 9 hours of classes, based on the UPC or IPC code books

The licensing cycle for the City of Salina is 3 years; therefore you can obtain your continuing education hours anytime over that 3 year period. If you are licensed in another jurisdiction it is your responsibility to know their requirements/licensing cycle and understand that you may need to obtain 6 hours per year.

The code version under which you are tested must be equal to or newer than the currently adopted code version for the City of Salina (currently 2012 for Plumbing and Mechanical and 2011 for Electrical). If an individual wishes to test under a more recent code cycle, that is acceptable. Not all tests are available in all code cycles, so choice may be limited
