

City of Salina, Kansas
Salina South Well Field and Water Treatment Plant Improvement Project

The City of Salina is initiating the process to select a Design-Build team for the **South Well Field and Water Treatment Plant Improvement Project**. This Project includes improvements to the City's five existing wells and construction of a new 3.5 MGD water treatment plant and associated infrastructure including raw water lines, finished water lines, and other utilities.

The Project will utilize the progressive design-build project delivery method. HDR will act as the City's representative throughout the project. It is the City's intent to engage the selected Design-Build team early in the process to collaboratively select and finalize a treatment process for the plant and establish a firm budget for the Project.

The purpose of this advertisement is to invite potential Design-Build teams and parties interested in design and construction services for the Project to an informational Pre-Procurement Meeting. The intent of the meeting is for interested teams to learn more about the Project and the City of Salina's objectives for implementation of the Design-Build Project. This meeting is non-mandatory and will occur prior to the release of the Request for Qualifications (RFQ).

Meeting Date/Time: Tuesday, September 13, 2016

Informational Session:	10:00 am – 12:00 pm
Site Tour:	1:00 pm
